- ii. The requirements for loading areas are determined primarily by the function and size of various buildings comprised in the Tufts Campus. Consequently, parking and loading requirements shall be construed as if they were applicable to the Tufts Campus as a whole, and may be fulfilled by facilities serving the Tufts Campus located in either Somerville or Medford. Properties owned by Tufts University which are not within the Tufts University district but are located within five hundred (500) feet thereof shall be governed by the provisions of this Section insofar as appropriate in lieu of provisions otherwise applicable.

Tufts Parking shall be available for use only by persons to whom a Parking Permit has been issued by Tufts University. Such Permits shall be issued only to members of the University faculty, staff or student body, or to persons having a need for access to Tufts Parking for temporary use, and may be issued for general use of Tufts Parking or for use limited to specified areas of Tufts Parking or for limited time periods. If and whenever such a certification shall indicate a deficiency of the number of parking spaces comprised in Tufts Parking to meet the requirements of this Section, Tufts University shall also submit therewith a proposed plan for the interim and long term correction and elimination of such deficiency. With respect to the period from the date of adoption of this Ordinance to the submission of the first parking and traffic study required by the following sentence, such deficiency as exists in Tufts Parking shall be dealt with and corrected by the implementation by Tufts University of the provisions of the Tufts Parking Plan dated June 6, 1989, submitted by Tufts University to the Traffic and Parking Director. 7 SPECIAL DISTRICTS

Tufts University (TU)

- c). Group C: .12
- d). Group D: .24
- e). Group E: .44
- ii. If and whenever any parking and traffic study indicates that a greater or lesser number of parking spaces is reasonably required for the uses and activities of Tufts University than is set forth in the preceding paragraph with respect to any or all of the categories therein specified, the Traffic and Parking Director may (i) require the University to submit and implement a plan for interim or long term correction of any deficiency in parking spaces for any of said categories, or (ii) upon application of the University, permit a reduction in the required number of parking spaces by not more than twenty-five (25) percent. A reserve area, sufficient to accommodate at least one-half of the amount of reduction in number of parking spaces required and otherwise reasonably satisfactory to the Traffic and Parking Director, shall be provided and specified in the application. Permission granted for such reduction shall remain in effect for an initial period of not more than three years, but may subsequently be extended or granted for a longer period upon reasonable verification that the parking is adequate.

Buildings having functions which require delivery of materials in large size trucks shall have at least one loading bay for each fifty thousand (50,000) square feet of net floor area for which loading is required. Buildings or portions of buildings having functions which require delivery of materials in smaller size trucks, in smaller quantities or on infrequent occasions shall be served by appropriate smaller loading areas or facilities which are adapted to the particular need and consistent with pedestrian and vehicular traffic and safety. Tufts University shall submit with each application for a building permit documentary evidence reasonably satisfactory to the Building Official that the loading areas and facilities proposed in such application are in accordance with the foregoing requirements and guidelines.
 - f. Incorporated Provisions
